Your annual exam  
Full health at 87

Unwarranted urgent follow  
Up during a pandemic!

Several calls always  
of asymptomatic “worry”

Appeal for follow-up, “uneasiness”  
Attempted Zoom, not easy!

Your apprehension source  
Age? Isolation from Covid?

Pragmatic your reply  
Quavering your chirpy voice

“Doctor, I worry about you  
I’m making sure you’re still there!”
